

Patti dear,

COPY

May 2009

It is a long time since you heard some accounts of St. Philomena's marvels in our country. I have piles and piles of these extraordinary occurrences, most of them are more or less the same as the ones I have written down. But those connected with evil spirits are countless. Evil spirits, as I told you before, seem to be walking or flying about everywhere. They attack people especially youth, young boys and girls and babies. But they are not visible. So in these cases, I smear the oil on the door latches and use it in various other ways. Please send me more of the holy oil.

## *Miracles of Our Dear Saint Philomena:*

1. A certain woman had difficulties in her marriage. She visited the witch doctor so that the problems with her husband might be overcome. She was so stressed that she began to wet her bed at night. Seeing this, her husband left home. She tried all means to overcome this problem but she continued to wet her bed. Sometimes, she just kept awake the whole night, but in just five minutes when she closed her eyes, she had wetted the bed. One day, she heard about the miracles of St. Philomena and joined the Living Rosary. I gave her the Novena prayer, cord and oil. She prayed her Decade and wore the cord. That very night, she slept like a baby and when she woke up in the morning, she expected to find herself *'swimming'* but, till today, nothing happened. She is so happy that she is normal again.
2. This member had sores which the doctors could not cure. By applying the holy oil on the sores, she was cured within three days!
3. One old man was wetting his bed due to his age. By taking a drop of oil, he was totally cured.
4. In the village, near the mission, a woman arrived from the Republic of South Africa. She came with her 4-year old child who never started to walk or talk. The mother was desperate as she was about to give birth to another child. I rubbed the holy oil on the knees and ankles of the 4-year old and put a drop on her tongue. The following day, the

child was walking about and playing with other children. The child was starting to articulate words which others were saying. By the end of the week, her speech was fluent.

5. You know some of the miracles are really incredible like this one: In one village, people were being continually robbed of their cattle. One woman came to ask me if Saint Philomena could help her to protect her cattle from the thieves as the cattle was her only means of survival. We were also astonished at her request. So, we gave her the picture of St. Philomena and told her to place it near the kraal's entrance. She told the boys not to take out the cattle before dawn. You know, here in Lesotho, the boys take out the cattle to graze during the early hours at about 2 – 5 a.m. so as to get the best cool grass. One day, the boys got up early and drove the cattle out of the kraal to graze. As soon as the cattle were out, the boys were surprised that the cattle vanished and could not be seen anywhere. That very night, the thieves came to steal the cattle but they could not be found or seen anywhere. The boys began to cry and woke their mother to tell her that the cattle disappeared. Early in the morning, they found the cattle just near their kraal, chewing the cud. Everyone was amazed as it was clear that the cattle never went anywhere. The family knelt down and thanked St. Philomena for her special protection.
6. It is now two years since this woman was bedridden due to sickness and weakness. After her body was massaged with the holy oil of St. Philomena, she got up and walked. Now, she is cured and is working like any other women. **Viva, St. Philomena, our Wonder-Worker!!!**
7. I have e-mailed you about a young man whose lung was eaten up by AIDS. We made the young man drink the holy oil of St. Philomena and we prayed along with him. He was to undergo surgery to replace his lung with a plastic lung. The specialist wanted to make sure that he really needed that operation; so they wheeled him to the x-ray room twice and the third time the x-ray was conducted by the doctors themselves, who were shocked to find that he had two good healthy lungs. They questioned the young man, **"How come your lungs are healthy and normal?"** The young man replied that he drank the holy oil of St. Philomena and declared that is God's doing and, so, the doctors sent him home saying, **"Yes, God is great!"** This is the greatest miracle we saw with our own eyes.

St. Philomena is loved so much that many are members of the Living Rosary. They pray the Rosary every day and in a very special way during this May, the month of Mary.

Patti, I got the Scapulars from Mrs. Kooa. Thank you very much. I hope she will continue to make them for they are really in great demand.

May God bless you and your staff!

Yours in the Immaculata,

**Sr. Clara Rapholo, s.c.i.m.**
